Responsibilities of the Commission/Members

Serves in an advisory capacity to the Governor on matters of local, state, regional and national energy policy. Make recommendations on energy policy, energy supplies and prices, consumer protections, new technologies, increased energy efficiency, increased use of diverse and clean energy supplies. Submit initial report to the Governor by June 1, 2003 including analysis of Missouri's current and future energy supplies and demand; analysis of the impact of Standard Market Design rules proposed by FERC; and recommend how MO state government may become a leader in energy efficiency. Publish annual Green Progress Report assessing how Missouri's public/private sectors are reducing their energy use and increasing the use of renewable energy sources.
